Dear Dr. Mazzone:

Re: U.S. Non-Provisional Patent Application Serial No. 09/932,371
Filed: August 17, 2001
Title: Medical Information System, Method And Article
Of Manufacture
Inventor: T. Mazzone
Our File Ref.: 011323.00007

After our telephone call last night, I created a response to the office action. Time was a bit short and consequently there are two oversights, which should not impact the arguments made. The first oversight occurs on page 1 of the response where I noted the examiner's name is "M. Bell" - as you know the examiner changed with the most recent office action. The second oversight occurs on page 2 where I stated the remarks start on page 2 - in fact, the remarks start on page 3.

Please review the response and let me know whether the arguments were made to your satisfaction. We can file an augmented response if needed, but that should be filed soon in order to allow the examiner to consider such an augmented response.

I would like to call the examiner this week to discuss our arguments. Please let me know whether you believe a telephone call to the examiner is appropriate.

Regards,

R. Kent Roberts
